Helpful Hints

GAUGE . . . Compare your gauge with that specified. If you crochet tightly, use size larger hook than directions call for; if you crochet loosely, use size smaller hook.

BLOCKING . . . With right side down and following measurements given, pin each piece, with rust proof pins, to a pressing board. *Do not stretch ribbing.* Press carefully through a damp cloth allowing the steam to penetrate. Let dry thoroughly before removing pins. When there are raised stitches, stretch article to measurements given and steam by holding hot iron lightly over wet cloth.

SEWING A GARMENT . . . After pieces are blocked, place right sides of pieces together and pin edges. Sew with small back stitches about ¼ inch in from edge, making sure the length of seam corresponds with that given in directions. Press seams open. Match stripes wherever possible, easing in any fullness. Sew a narrow tape across shoulder seams to avoid stretching.

DYE LOT . . . Be sure to purchase sufficient material of same dye lot to complete the article. Slight variation of color is unavoidable in different dye lots.
